

Lori Grant

Ward 5 - Beaverlodge, Elmworth

Vision and Goals – Platform

My Vision is two part. For the students - I will work toward enhancing the Alberta Education Curriculum to include solid mental health education into all grades. For the families - I will work toward building solid relationships with the County of Grande Prairie and all other communities, in which we have schools, so we can work together to provide education options for all students in the communities in which they reside.

Community Involvement

My community involvement is very important to me. I believe we have to give back to our communities so they can continue to thrive. I have been a school board trustee for the last 4 years. I am a member of the advisory committee for Family and Community Support Services for the Beaverlodge area and I maintain an active role in the Rio Grande Sports Committee. As well, I volunteer my time to the GP Care Home to make the experience for the residence more pleasant.

Career and Experience

My career has spanned 35 years. I spent 32 years in manufacturing, 2 years with the County of Grande Prairie, and a 6 month term in the Oil and Gas sector. Throughout the 35 years, I have worked for Dow Chemical in Research and Development and I was part of the start up team for the new polyethylene plant. 28 years were spent with P&G and Weyerhaeuser. I had the honor of working in HR, Safety, Industrial Hygiene, Lab Technician, Developing and Implementing programs across the province and as a team leader for the company Harvest and Road Building team. My time with the County was in their Safety and HR department and Public Works. I have enjoyed all aspects of my career and I am now semi retired. Looking forward to focusing on giving back to the communities I represent.

Education

I have a diploma in Chemical Technology through NAIT.
