Vision and Goals – Platform

As your school trustee, I look forward to meeting new people and gaining a broader perspective on education. I will bring a rural voice to the board. Rural schools face different challenges than the bigger schools closer to GP. I want to learn about schools across the division.

Schools are an important place for learning and connection; they can be the heart of a community. Connection has been a big challenge these past few years. Covid restrictions and constant changes have made students, school staff, and

parents feel less connected than ever before. I want to support reconnection within school communities.

Conflict resolution starts with understanding all the views. I am curious and calm. I have experience asking questions to better understand problems. I know working together is challenging and worthwhile. It is my goal to understand PWSD policies and procedures better to help our learners flourish. I want to help parents deal with their concerns in a productive way. I want to serve my community by representing them at the Peace Wapiti School Division Board table.

I need your vote. Do so at the advance polls Oct 4th - 16th or during municipal election day on Monday October 18th.
